Below this is a 'TRY FREE DEMO' button and the website 'WWW.CERTSFIRE.COM'. A circular inset on the right shows a smiling man in a suit. The background has decorative orange and blue curved shapes.

Start Preparation with CertsFire Oracle 1Z0-063 Exam Questions:

CertsFire is a leading platform that has been helping Oracle Database 12c: Advanced Administration 1Z0-063 certification exam aspirants for many years. Over this long time, CertsFire Oracle 1Z0-063 exam questions played an important role in candidates' Oracle Database Application Development 1Z0-063 exam dumps preparation. All the candidates that used CertsFire Oracle 1Z0-063 exam questions passed their exam easily. You should not ignore the CertsFire Oracle Database 12c: Advanced Administration 1Z0-063 exam dumps and must try to evaluate your Oracle 1Z0-063 certification exam questions preparation performance. As far as the CertsFire ***Oracle Database Application Development 1Z0-063*** exam dumps features are concerned CertsFire has added the top-rated and high-in-demand features in Oracle 1Z0-063 exam questions. Some of the prominent features are: free download CertsFire Oracle Database 12c: Advanced Administration 1Z0-063 exam dumps demo, months CertsFire Oracle 1Z0-063 updated questions download facility free of cost, affordable price, updated and real Oracle Database Application Development 1Z0-063 exam dumps

and 100 percent Oracle 1Z0-063 exam passing money-back guarantee. Download CertsFire Oracle Database 12c: Advanced Administration 1Z0-063 practice questions and start exam preparation without wasting further time.

Valid and Updated CertsFire Oracle 1Z0-063 Exam Questions:

CertsFire is a famous platform that offers valid, updated, and real Oracle Database Application Development 1Z0-063 exam questions in three easy-to-use and compatible formats. These formats are: CertsFire Oracle 1Z0-063 PDF dumps file desktop practice test software and web-based practice test software. These CertsFire Oracle Database 12c: Advanced Administration 1Z0-063 practice questions are real and updated as per the latest Oracle 1Z0-063 exam syllabus. So you rest assured with the CertsFire Oracle Database Application Development 1Z0-063 exam dumps you will not only ace your Oracle 1Z0-063 exam questions preparation but also get success in ***Oracle Database 12c: Advanced Administration 1Z0-063*** exam with good scores. CertsFire Oracle 1Z0-063 PDF dumps file is the PDF version of Oracle Database Application Development 1Z0-063 exam questions that work with all operating systems and devices. Whereas the CertsFire Oracle 1Z0-063 desktop practice test software and web-based practice test software are concerned with both the mock Oracle Database 12c: Advanced Administration 1Z0-063 exam that will stimulate the real-time Oracle 1Z0-063 exam environment. Get any CertsFire Oracle Database Application Development 1Z0-063 exam dumps format that suits your exam preparation requirement and start Oracle exam questions preparation today.

CertsFire Offers a 100 Percent Oracle 1Z0-063 Exam Passing Money-Back Guarantee:

Today is the right time to prove your expertise and knowledge with the Oracle Database 12c: Advanced Administration 1Z0-063 certification exam and put your career in the right mode. You can do this easily just download the CertsFire Oracle 1Z0-063 practice questions and start this rewarding career booster journey. CertsFire ***Oracle Database Application Development 1Z0-063*** dumps come with the 100 percent Oracle 1Z0-063 exam questions passing money-back guarantee. This means to say if you fail in the Oracle Database 12c: Advanced Administration 1Z0-063 exam despite using our Oracle 1Z0-063 exam dumps, we will return your whole payment without any deduction. So what you are waiting for take a decision right now and start the Oracle Database Application Development 1Z0-063 certification exam passing journey.

Question No. 1

Your multitenant container database (CDB) CDB1 has two pluggable databases, PDB1 and PDB2. The local net service name CDB1 connects to the root database, and the service names PDB1 and PDB2 connect to the pluggable databases (PDBs), PDB1 and PDB2, respectively.

Examine the commands to change the value of the PDB modifiable initialization parameter:

```
$> sqlplus sys/oracle_4U@pdb1 AS SYSDBA
```

```
SQL> ALTER SYSTEM SET optimizer_use_sql_plan_baselines=FALSE SCOPE=BOTH;
```

```
SQL> CONN sys/oracle_4U@pdb2 AS SYSDBA
```

```
SQL> ALTER SYSTEM SET optimizer_use_sql_plan_baselines= TRUE SCOPE = BOTH;
```

```
SQL> CONN sys/oracle_4U@cdbl AS SYSDBA
```

```
SQL> ALTER SYSTEM SET optimizer_use_sql_plan_baseline=TRUE SCOPE=BOTH;
```

Which statement is true about the OPTIMIZER_USE_SQL_PLAN_BASELINES parameter?

- **A.** It gives an error because it cannot be set for the root database.
- **B.** It is set to TRUE for the root database and the pluggable database PDB2, because values can be set for this parameter at the PDB level in a PDB.
- **C.** It is set to TRUE for the root database and all the PDBs, because the value set at the root level has higher precedence.
- **D.** It is set to TRUE for the root database and all the PDBs, but is effective only when the CDB is restarted and the PDBs are reopened.

Answer: B

Question No. 2

You issue the RMAN command:

```
RMAN> BACKUP SECTION SIZE 300M TABLESPACE users;
```

Which statement is true about the execution of the command?

- **A.** The resulting backupset has backup pieces that cannot exceed 300 MB.
- **B.** RMAN uses multiplexing to perform the backup.
- **C.** RMAN always performs this type of backup in parallel.
- **D.** The backup succeeds only if the USERS tablespace is locally managed.
- **E.** The backup set size is limited to 300 MB.

Answer: A

Question No. 3

Which two statements are true about encrypted backups performed by using RMAN? (Choose two.)

- **A.** Transparent encryption of backups uses an encryption wallet.
- **B.** A database uses the same encryption key for every encrypted backup.

- **C.** A password encryption of backups uses the password while creating and restoring backups.
- **D.** Image copy backups can be created by using password encryption.
- **E.** Encrypted backups can only be written to disk.

Answer: A, C

Question No. 4

Your database is running in ARCHIVELOG mode. Complete database backups are performed daily at midnight. A user accidentally truncates an important table at 10 AM after the last backup. After that, a few important transactions are performed on the database.

Which two best methods for recovering the truncated table data? (Choose two.)

- **A.** Table Point-in-Time Recovery
- **B.** Database Point-in-Time Recovery
- **C.** Tablespace Point-in-Time Recovery
- **D.** Flashback Database
- **E.** Flashback Transaction Backout References:

Answer: B, D

Question No. 5

Which three conditions must be met before you Virtual Private Catalog (VPC) can be created and used by an Administrator? (Choose three.)

- **A.** A base recovery catalog must exist.
- **B.** The owner of the VPC cannot own recovery catalog.
- **C.** At least one target database should be registered in the recovery catalog.
- **D.** The REGISTER DATABASE privilege should be granted to the virtual catalog owner.
- **E.** The DBA role must be granted to the virtual catalog owner.

Answer: A, B, E
